

Ion channel CRO presenting latest cardiac safety assay data, including stem cell iPSC cardiomyocytes

Metrion are presenting at two cardiac safety conferences in Vancouver :

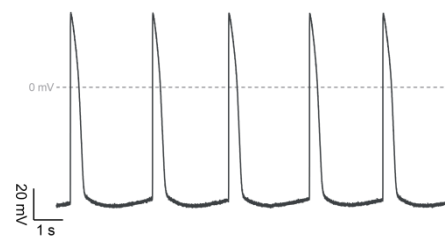

- ACEA CardioSymposium (16th-17th Sept 2016)
<http://aceabio.com/wp-content/uploads/Cardio-Symposium-Agenda-v2.1.pdf>
- Safety Pharmacology Society meeting (18th-21st September 2016)
 - Visit us at exhibitor booth #111
 - We will be presenting the following posters with our collaborators:

Human ventricular stem cell cardiomyocytes: validating *in vitro* assays and screening platforms for pro-arrhythmia risk prediction

Poster number 0242

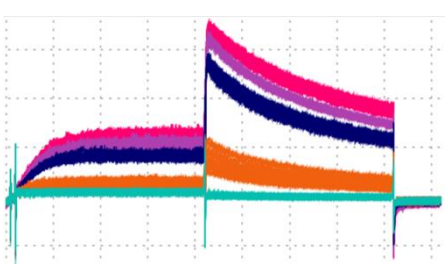

Mon 15:15-15:45,
Tue 13:00-14:00

Human stem cell-derived cardiomyocytes: *in vitro* assays and screening platforms for exploring ventricular and atrial phenotypes

Poster number 0247

Mon 13:00-14:00,
Tue 15:15-15:45

CiPA Update: Refining *In Vitro* Cardiac Ion Channel Assays, *In Silico* Models and iPSC-Derived Cardiomyocyte Reagents for Improved Pro-arrhythmia Risk Prediction

Poster number 0100

Mon 13:00-14:00,
Tue 15:15-15:45
